

# TECHNOLOGY-AS-A-SERVICE (T-A-A-S)

## FLEXIBLE, AFFORDABLE TECHNOLOGY SOLUTIONS FOR SENIOR CARE COMMUNITIES

As a leading provider of technology solutions and services to senior care communities of all sizes, Fully Managed understands the challenges you face. Budget constraints are a reality, and as a result, planning your technology roadmap can be tricky. Requirements shift over time and your organization needs the ability to adapt without paying a penalty.

Technology-as-a-Service® or TaaS provides you with new options – enabling your organization to get the very best hardware and technology services you need without the large up-front costs.

## TAAS BENEFITS

**Defined Costs:** No large CapEx hits to purchase physical assets. TaaS gives you access to the latest technology and services with a clear picture of monthly costs. Plus, you only pay for the value you receive today - we have to keep earning your business!

**Scalable, Flexible:** Your organization grows and shifts over time. TaaS makes it simple to scale as needed, making it easier to adapt as changes occur. Access to new or upgraded technology services is simplified and easy to roll out - giving you the flexibility to realize your technology roadmap objectives. No big technology purchases required.

**The Latest – Always:** With TaaS, new features, fixes and updates are available and can be automatically pushed, seamlessly ensuring you have the latest technology and security.

**You're Covered:** The TaaS model means your technology is fully supported, eliminating technology hassles for your team. Fully Managed also offers an Advanced Replacement Program - meaning any hardware defects are dealt with quickly and conveniently for you.

Fully Managed is a top managed service provider for small and medium-sized enterprises and senior care facilities. Our mission is **Creating Peace of Mind** that our customers' technology will work exactly **how** they need it to, **when** they need it to!
